

# HTML TAG SUMMARY

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<b>MOST TAGS</b>		
CLASS	Divides tags into groups for applying styles	202
ID	Identifies a specific tag	201
STYLE	Applies a style locally	200
TITLE	Adds tool tips to elements	181
<!DOCTYPE>	Identifies the HTML version used on a Web page	13
<A>	Creates a link	74, 76
ACCESSKEY	Adds a keyboard shortcut to a link	86
HREF	Specifies the location of linked information	74, 76
NAME	Names a Web page area	76
TABINDEX	Specifies the tab order for links	87
TARGET	Specifies a window or frame for a link	84, 148
<APPLET>	Adds a Java applet to a Web page	190
ARCHIVE	Specifies the location of a Java archive file	191
CODE	Specifies the location of a Java applet	190
HEIGHT, WIDTH	Specifies the height and width of a Java applet	190
<AREA>	Specifies the information for one image map area	194
ALT	Provides a text label for an image map area	195
COORDS	Specifies the coordinates for an image map area	194
HREF	Specifies the location of a Web page linked to an image map area	194
SHAPE	Specifies the shape of an image map area	194
TABINDEX	Specifies the tab order for image map areas	143
<B>	Bolds text	26
<BASE>	Sets the default window or frame for links	84, 148
TARGET	Specifies the window or frame links will open in	84, 148
<BASEFONT>	Changes the appearance of all text	30
SIZE	Changes the size of text	30
<BIG>	Makes text larger than the surrounding text	31

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<BLOCKQUOTE>	Creates a block quote	37
<BODY>	Identifies the main content of a Web page	12
ALINK, LINK, VLINK	Changes the color of links	85
BACKGROUND	Adds a background image	46
BGCOLOR	Adds a background color	34
BGPROPERTIES	Specifies that a background image will not move when a user scrolls	182
BOTTOMMARGIN	Changes the bottom margin	35
LEFTMARGIN	Changes the left margin	35
MARGINHEIGHT	Changes the top and bottom margins	35
MARGINWIDTH	Changes the left and right margins	35
RIGHTMARGIN	Changes the right margin	35
TEXT	Changes the color of text	32
TOPMARGIN	Changes the top margin	35
 	Starts a new line	18
CLEAR	Stops text from wrapping	48, 110
<BUTTON>	Creates a button	137, 164
TYPE	Specifies the type of button	137, 164
<CAPTION>	Adds a caption to a table	91
ALIGN	Changes the alignment of a caption	91
<CENTER>	Centers elements on a Web page	27, 45
<CODE>	Identifies text as computer code	36
<COL>	Creates a non-structural column group in a table	92
ALIGN	Changes the horizontal alignment of data	98
BGCOLOR	Adds a background color	96
CHAR	Specifies a character to align	99
SPAN	Specifies the number of columns in a column group	92
VALIGN	Changes the vertical alignment of data	98

# HTML TAG SUMMARY

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<COLGROUP>	Creates a structural column group in a table	92
ALIGN	Changes the horizontal alignment of data	98
BGCOLOR	Adds a background color	96
CHAR	Specifies a character to align	99
SPAN	Specifies the number of columns in a column group	92
VALIGN	Changes the vertical alignment of data	98
<DD>	Identifies a definition in a definition list	43
<DEL>	Strikes out deleted text	27
<DIV>	Divides a Web page into areas for applying styles	204
CLASS	Identifies the style to use in a Web page area	205
<DL>	Creates a definition list	43
<DT>	Identifies a term in a definition list	43
<EM>	Emphasizes text using italics	27
<EMBED>	Adds a sound or video to a Web page	114, 118
ALIGN	Wraps text around a video	119
AUTOSTART	Plays a sound or video automatically	114, 118
HEIGHT, WIDTH	Specifies a height and width for sound controls or a video	114, 118
HIDDEN	Hides the controls for a sound	115
LOOP	Plays a sound or video continuously	114, 118
SRC	Specifies the location of a sound or video	114, 118
<FIELDSET>	Organizes form elements into groups	140
<FONT>	Changes the appearance of text	29, 30, 32
COLOR	Changes the color of text	32
FACE	Changes the font of text	29
SIZE	Changes the size of text	30
<FORM>	Creates a form	122
ACCEPT-CHARSET	Specifies character sets a Web server must support	123
ACTION	Specifies where a Web browser will send user information	122

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
ENCTYPE	Specifies the format for transferring form information	122, 134
METHOD	Specifies how form information is transferred over the Internet	122
TARGET	Specifies where the confirmation message for a form will appear	123
<FRAME>	Specifies information for one frame	144
BORDERCOLOR	Changes the color of the borders for a frame	153
FRAMEBORDER	Hides the borders for a frame	153
MARGINHEIGHT	Changes the top and bottom margins for a frame	154
MARGINWIDTH	Changes the left and right margins for a frame	154
NAME	Names a frame	145
NORESIZE	Prevents users from resizing a frame	151
SCROLLING	Hides or displays scroll bars for a frame	150
SRC	Specifies the location of the Web page that will appear in a frame	145
<FRAMESET>	Creates a set of frames	144
BORDER	Changes the thickness of frame borders	152
BORDERCOLOR	Changes the color of frame borders	152
COLS	Creates columns of frames	144
FRAMEBORDER	Hides frame borders	152
FRAMESPACING	Changes the thickness of frame borders	153
ROWS	Creates rows of frames	144
<H1> to <H6>	Creates a heading	20
ALIGN	Changes the alignment of a heading	20
<HEAD>	Identifies the head section of a Web page	12
<HR>	Adds a horizontal rule to a Web page	52
ALIGN	Changes the alignment of a horizontal rule	53
NOSHADOW	Removes the 3-dimensional effect from a horizontal rule	53
SIZE	Changes the thickness of a horizontal rule	52
WIDTH	Changes the width of a horizontal rule	52
<HTML>	Identifies a document as an HTML document	12

# HTML TAG SUMMARY

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<I>	Italicizes text	26
<IFRAME>	Creates an inline frame	156
ALIGN	Wraps text around an inline frame	157
HEIGHT, WIDTH	Specifies a height and width for an inline frame	156
MARGINHEIGHT	Changes the top and bottom margins for an inline frame	157
MARGINWIDTH	Changes the left and right margins for an inline frame	157
NAME	Names an inline frame	156
SCROLLING	Hides or displays scrollbars for an inline frame	157
SRC	Specifies the location of the Web page that will appear in an inline frame	156
<IMG>	Adds an image to a Web page	44
ALIGN	Aligns an image with text or wraps text around an image	48, 50
ALT	Displays alternative text when an image does not appear	44
BORDER	Adds a border to an image	47
DYNSRC	Adds an internal AVI video to a Web page	119
HEIGHT, WIDTH	Specifies a height and width for an image	58, 59
HSPACE, VSPACE	Adds space around an image	51
ISMAP	Creates a server-side image map	195
LOWSRC	Specifies the location of a low-resolution version of an image	64
NAME	Names an image for a JavaScript	170
SRC	Specifies the location of an image	44
TABINDEX	Specifies the tab order for images	143
USEMAP	Specifies the name of an image map	192
<INPUT>	Creates form elements	124, 128, 130, 134, 136, 138, 139
ACCEPT	Specifies the types of files users can send	135
ACCESSKEY	Adds a keyboard shortcut to a form element	131
CHECKED	Selects a check box or radio button automatically	128, 130
DISABLED	Prevents users from using a form element	127
MAXLENGTH	Specifies the maximum number of characters for a form element	124

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
NAME	Identifies a form element in the form results	124, 128, 130, 134, 137, 138, 139
READONLY	Prevents users from editing information in a form element	127
SIZE	Specifies the size of a form element	124, 134
SRC	Specifies the location of the image for a graphical submit button	138
TABINDEX	Specifies the tab order for form elements	143
TYPE	Specifies the type of form element	124, 128, 130, 134, 136, 138, 139
VALUE	Identifies a form element	125, 128, 130, 136, 139
<INS>	Underlines inserted text	27
<KBD>	Identifies text users should type	36
<LABEL>	Labels a form element	142
FOR	Identifies the form element for a label	142
<LAYER>	Positions elements	237
HEIGHT, WIDTH	Specifies a height and width for a layer	237
LEFT	Specifies a position for a layer from the left edge of a window	237
TOP	Specifies a position for a layer from the top edge of a window	237
Z-INDEX	Controls the order layers overlap	237
<LEGEND>	Adds a title to a group of form elements	140
ALIGN	Aligns the title for a group of form elements	140
<LI>	Identifies an item in an ordered or unordered list	38, 40
TYPE	Specifies a bullet style for a list item	41
VALUE	Specifies the number for a list item	39
<LINK>	Links an external style sheet to a Web page	199
HREF	Specifies the location of an external style sheet	199
REL	Specifies the relationship of an external style sheet to the Web page	199
TYPE	Specifies the format of an external style sheet	199
<MAP>	Creates an image map	192
NAME	Names an image map	192

# HTML TAG SUMMARY

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<MARQUEE>	Creates a marquee	176
BEHAVIOR	Specifies how text will scroll	176
BGCOLOR	Adds a background color to a marquee	177
DIRECTION	Specifies the direction text will scroll	176
HEIGHT, WIDTH	Specifies a height and width for a marquee	177
HSPACE, VSPACE	Adds space around a marquee	177
LOOP	Specifies the number of times text will scroll across the screen	176
SCROLLAMOUNT	Specifies the amount of space text will move at a time	176
SCROLLDELAY	Specifies the amount of time between each movement of text	176
TRUESPEED	Overrides the minimum SCROLLDELAY value	177
<META>	Provides information about a Web page	159, 186, 188, 238-242
CONTENT	Specifies custom information about a Web page	159, 186, 188, 238-242
HTTP-EQUIV	Provides instructions for a Web server	159, 186, 188, 241
NAME	Identifies the type of information	238-240, 242
URL	Specifies the location of a Web page that will appear automatically	186
<NOBR>	Keeps text on one line	17
<NOEMBED>	Displays alternative text when a browser does not support the <EMBED> tag	115
<NOFRAMES>	Displays alternative text when frames do not appear	147
<NOSCRIPT>	Displays alternative text when a JavaScript does not run	160
<OBJECT>	Adds an object to a Web page	115, 119, 191
CLASSID	Specifies the location of an object	191
DATA	Specifies the location of an object	115, 119
HEIGHT, WIDTH	Specifies a height and width for an object	119, 191
<OL>	Creates an ordered list	38
START	Specifies a starting number for an ordered list	39
TYPE	Specifies a number style for an ordered list	38
<OPTGROUP>	Divides a form menu into submenus	133
LABEL	Specifies a title for each submenu	133

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<OPTION>	Creates a menu option on a form	132
SELECTED	Selects a menu option automatically	132
VALUE	Identifies a menu option in the form results	132
<P>	Starts a new paragraph	16
ALIGN	Changes the alignment of a paragraph	16
<PRE>	Retains the spacing of text	22
<Q>	Identifies a short quotation	37
<SAMP>	Identifies sample text	36
<SCRIPT>	Adds JavaScript to a Web page	158
DEFER	Informs browsers that a script will not generate Web page content	159
LANGUAGE	Specifies the scripting language for a script	159
SRC	Specifies the location of an external script	161
TYPE	Specifies the scripting language for a script	158
<SELECT>	Creates a menu on a form	132
MULTIPLE	Allows users to select more than one menu option	133
NAME	Identifies a menu in the form results	132
SIZE	Specifies the number of options visible in a menu	132
TABINDEX	Specifies the tab order of form elements	143
<SMALL>	Makes text smaller than the surrounding text	31
<SPACER>	Adds a block of space to a Web page	185
ALIGN	Wraps text around a block of space	185
HEIGHT, WIDTH	Specifies a height and width for a block of space	185
TYPE	Specifies the type of space	185
<SPAN>	Divides text into sections for applying styles	205
CLASS	Identifies a section of text for a style	205
<STRIKE>	Places a line through text	26
<STRONG>	Emphasizes text using bold formatting	27
<STYLE>	Creates an internal style sheet	196
<SUB>	Subscripts text	28

# HTML TAG SUMMARY

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<SUP>	Superscripts text	28
<TABLE>	Creates a table	88
ALIGN	Wraps text around a table	110
BACKGROUND	Adds a background image	97
BGCOLOR	Adds a background color	96
BORDER	Adds a border	90
BORDERCOLOR	Specifies a color for a border	90
CELLPADDING	Changes the amount of space around the contents of cells	104
CELLSPACING	Changes the amount of space between cells	104
FRAME	Specifies which external borders to display	106
HEIGHT, WIDTH	Specifies a height and width for a table	100
RULES	Specifies which internal borders to display	106
<TBODY>	Creates a body row group in a table	94
ALIGN	Changes the horizontal alignment of data	98
BGCOLOR	Adds a background color	96
CHAR	Specifies a character to align	99
VALIGN	Changes the vertical alignment of data	98
<TD>, <TH>	Creates a data cell or header cell in a table	88
ALIGN	Changes the horizontal alignment of data	98
BACKGROUND	Adds a background image	97
BGCOLOR	Adds a background color	96
CHAR	Specifies a character to align	99
COLSPAN	Spans a cell across columns	102
HEIGHT, WIDTH	Changes the height and width of a cell	101
NOWRAP	Keeps text in a cell on one line	108
ROWSPAN	Spans a cell down rows	102
VALIGN	Changes the vertical alignment of data	98

TAG/ATTRIBUTE	DESCRIPTION	PAGE REFERENCES
<TEXTAREA>	Creates a large text area on a form	126
ACCESSKEY	Adds a keyboard shortcut to a large text area	131
COLS	Specifies a width for a large text area	126
DISABLED	Prevents users from using a large text area	127
NAME	Identifies a large text area in the form results	126
READONLY	Prevents users from editing information in a large text area	127
ROWS	Specifies a height for a large text area	126
TABINDEX	Specifies the tab order of form elements	143
WRAP	Specifies how text will wrap in a large text area	126
<TFOOT>	Creates a footer row group in a table	94
ALIGN	Changes the horizontal alignment of data	98
BGCOLOR	Adds a background color	96
CHAR	Specifies a character to align	99
VALIGN	Changes the vertical alignment of data	98
<THEAD>	Creates a header row group in a table	94
ALIGN	Changes the horizontal alignment of data	98
BGCOLOR	Adds a background color	96
CHAR	Specifies a character to align	99
VALIGN	Changes the vertical alignment of data	98
<TITLE>	Creates a title for a Web page	12
<TR>	Creates a row in a table	88
ALIGN	Changes the horizontal alignment of data	98
BGCOLOR	Adds a background color	96
CHAR	Specifies a character to align	99
VALIGN	Changes the vertical alignment of data	98
<TT>	Displays text in a monospaced font	36
<U>	Underlines text	26
<UL>	Creates an unordered list	40
TYPE	Specifies a bullet style for an unordered list	40

# STYLE SHEET PROPERTY SUMMARY

PROPERTIES	DESCRIPTION	PAGE REFERENCES
background	Adds a background color or image to elements	220, 222
background-attachment	Specifies if a background image will remain stationary	221
background-image	Adds a background image to elements	221
background-position	Specifies a starting position for a background image	221
background-repeat	Specifies how a background image will repeat	221
border	Places a border around elements	226
border-bottom	Specifies a bottom border for elements	227
border-color	Specifies a color for borders	227
border-left	Specifies a left border for elements	227
border-right	Specifies a right border for elements	227
border-style	Specifies a style for borders	227
border-top	Specifies a top border for elements	227
border-width	Specifies a thickness for borders	227
bottom	Positions elements with respect to the bottom edge of elements	234, 236
clear	Stops text from wrapping around elements	228
color	Changes the color of text or other elements	215
display	Changes the display of elements	229
float	Wraps text around elements	228
font	Changes multiple font settings at once	211
font-family	Changes the font of text	210
font-size	Changes the font size of text	212
font-style	Italicizes text	207
font-variant	Displays text in small caps	213
font-weight	Bolds text	206
height	Specifies a height for elements	223
left	Positions elements with respect to the left edge of elements	234, 236

PROPERTIES	DESCRIPTION	PAGE REFERENCES
letter-spacing	Adds space between letters	217
line-height	Adds space between lines of text	216
list-style	Specifies a bullet or number style for lists	230
margin	Changes all four margins for elements at once	225
margin-bottom	Changes the bottom margin for elements	225
margin-left	Changes the left margin for elements	225
margin-right	Changes the right margin for elements	225
margin-top	Changes the top margin for elements	225
padding	Adds space around all four sides of elements	224
padding-bottom	Adds space to the bottom of elements	224
padding-left	Adds space to the left side of elements	224
padding-right	Adds space to the right side of elements	224
padding-top	Adds space to the top of elements	224
page-break-after	Adds a page break after elements	233
page-break-before	Adds a page break before elements	233
position	Specifies an absolute or relative position for elements	234, 236
right	Positions elements with respect to the right edge of elements	234, 236
text-align	Changes the alignment of text	214
text-decoration	Adds a line to text, makes text blink	208, 211
text-indent	Indents the first line of text	209
text-transform	Changes the case of text	213
top	Positions elements with respect to the top edge of elements	234, 236
vertical-align	Specifies a vertical alignment for inline elements	232
width	Specifies a width for elements	223
word-spacing	Adds space between words	217
z-index	Controls how positioned elements overlap	237
